

CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Approve Plans and Specifications and Authorize Advertisement for Bids for Multimodal Station Driveway Replacement, 24 South Sacramento Street

MEETING DATE: April 15, 2009

PREPARED BY: Public Works Director

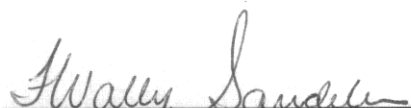

RECOMMENDED ACTION: Approve the plans and specifications for the Multimodal Station Driveway Replacement, 24 South Sacramento Street project and authorize advertising for bids.

BACKGROUND INFORMATION: This project consists of the removal and replacement of approximately 5,600 square feet of concrete driveway at the Multimodal Station.

The Multimodal Station and its concrete driveway were constructed in 1999. During the past 10 years, bus and truck traffic have broken the concrete driveway and required temporary patching to allow its continued use. This project will replace the existing driveway with a thicker, stronger concrete pavement section. The plans and specifications are on file in the Public Works Department. The planned bid opening date is May 20, 2009.

FISCAL IMPACT: The replacement of the existing driveway should reduce maintenance costs and provide a safer, more attractive approach to the Multimodal Station.

FUNDING AVAILABLE: The project estimate is \$120,000. The money for this project will be coming from Federal Transit Administration (FTA) funds and Transportation Development Act (TDA) funds. A request for appropriation of funds will be made at contract award.

F. Wally Sandelin
Public Works Director
